Design

Minerva Art Academy

Degree awarded: Bachelor of Arts

Prepare yourself for a future as a designer. Your first year is all about general design. Each study route involves five study periods. You will familiarise yourself with analogue and digital skills. You will also be taught art, design theory and receive vocational training. During the main phase, you will choose your own path. This can be a path focused on one of the following media forms: graphic & interaction design, illustration & animation design, interior architecture & design, time based design or product design. You will be able to choose your own route, independent of a certain medium, and you will be able to combine various profiles.

- ✓ 4 year programme (240 ECTS)
 - ✓ Exchange semester abroad
 - ✓ Work placement (in the Netherlands or abroad)
 - ✓ Honours talent programme for eligible students
 - ✓ Projects and exhibitions (in the Netherlands and abroad)
- 🔗 hanzegroningen.eu/design

Classical Music/Jazz

Prince Claus Conservatoire

Degree awarded: Bachelor of Arts

At the Prince Claus Conservatoire you will be trained to become a professional, well-rounded musician. This is done through personal, one-on-one training and classes from some of the best teachers and working musicians in the music world. Over four inspiring years, you will form the necessary musical skills, knowledge and insight to be able to make a meaningful contribution to the national and international music scene.

- ✓ 4 year programme (240 ECTS)
 - ✓ Only European conservatoire with 'New York comes to Groningen' programme
 - ✓ Personal one-on-one training and classes
- 🔗 hanzegroningen.eu/pcc

- 🔗 hanzegroningen.eu/finearts

International Business

International Business School

Degree awarded: Bachelor of Business Administration

The International Business (IB) bachelor's programme prepares you to become an international business professional who can help internationally operating businesses achieve their goals. From the moment you walk down our hallway, you immediately experience the international atmosphere. Besides learning about key business functions such as marketing, finance, HR and operations, you will also work on professional skills, including intercultural sensitivity, information management and communication (languages). IB is aimed at ambitious students who are open and sensitive towards other cultures, prepared to work with numbers and eager for new experiences.

- ✓ Four and three-year programme
 - ✓ Exchange semester abroad
 - ✓ Work placement (in the Netherlands or abroad)
 - ✓ Learn a second or third language
 - ✓ Honours talent programme for eligible students
- 🔗 hanze Groningen.eu/ib3 or hanze Groningen.eu/ib4

International Facility Management

Institute of Future Environments

Degree awarded: Bachelor of Science

Facility Management is all about people. It goes without saying that people function better in a welcoming environment, whether at work or in their spare time. Facility managers help create this positive atmosphere in a hospitable manner. They work behind the scenes to add value to the functionality of a professional environment. You will study subjects involving quality management, purchasing, sustainable buildings, the workplace and developing new services. After graduating from International Facility Management, you will be able to find a position at a managerial level that involves providing services.

- ✓ 4 year programme (240 ECTS)
 - ✓ Exchange semester abroad
 - ✓ Work placement (in the Netherlands or abroad)
 - ✓ Honours talent programme for eligible students
- 🔗 hanze Groningen.eu/ifm

International Finance & Control

Degree awarded: Bachelor of Science

This programme prepares students to become professionals that play a key role within an organisation. The role of a finance professional is to map out risks, gather and evaluate financial data in order to provide insights and argumentations for strategic choices. This comprehensive and practical programme provides you with fundamental knowledge and the skills to apply the expertise you have gained to real practical problems. Creating new business models, assessing risk, financing new enterprises and staying in control as business progresses are all part and parcel of your tasks as a future finance professional.

- ✓ 4 year programme (240 ECTS)
 - ✓ Exchange semester abroad
 - ✓ Work placement (in the Netherlands or abroad)
 - ✓ Honours talent programme for eligible students
- 🔗 hanze Groningen.eu/ifc

Marketing Management

Degree awarded: Bachelor of Science

In a world where people are increasingly exposed to excessive promotion and advertising, organisations deal with the challenge of making their products and services stand out from the crowd. What exactly does my customer want and need? And how can I convince someone to buy our brand, and not the competitor's? The Marketing Management programme prepares you to effectively deal with these kind of issues and is fully dedicated to developing your commercial talent.

- ✓ 4 year programme (240 ECTS)
 - ✓ Exchange semester abroad
 - ✓ Work placement (in the Netherlands or abroad)
 - ✓ Honours talent programme for eligible students
- 🔗 hanze Groningen.eu/marketingprogramme

Creative Media & Game Technologies

School of Communication, Media & IT
Degree awarded: Bachelor of Science

Making games to develop the future! Games are all around us, in our daily lives, and at the cutting-edge of technology. In the Creative Media and Game Technology programme, you will work with innovative technologies, learning how to build the future by making games, how to use them, and what can be invented with them. You will work on defining and promoting (serious) game concepts, learn to understand the principles of game art, as well as developing the code for gameplay. After completing this programme, you will have a foundation of skills and competences to accumulate yourself in a fast-changing environment, help users and shape the current and future digitalisation of society, and are prepared for a future in the creative industry.

- ✓ 4 year programme (240 ECTS)
 - ✓ Exchange semester abroad
 - ✓ Work placement (in the Netherlands or abroad)
- 🔗 hanze Groningen.eu/cmgt

Mechanical Engineering

Institute of Engineering
Degree awarded: Bachelor of Science

From conveyor belt constructions at an airport and (bio)medical devices in a hospital to wind turbines at power stations, mechanical engineering is everywhere. All these systems and machines are subject to ever-increasing demands like greater accuracy, greater economical use of raw materials and less impact on the environment. These are challenges for which you, as a mechanical engineer, develop new technical solutions! You will learn to improve existing devices and develop new appliances, products and services, for instance in areas like the industry, healthcare, robotics and energy. After completing this programme, you will have a strong foundation of knowledge and skills to work as a technical engineer, technical advisor, project leader, academic researcher or to start your own business.

- ✓ 3 year programme (180 ECTS)
 - ✓ Direct admission to the European Master in Renewable Energy programme after graduation
- 🔗 hanze Groningen.eu/mechanicalengineering

International Communication

School of Communication, Media & IT
Degree awarded: Bachelor of Arts

International Communication (IC) is a study programme for inquisitive students who understand the effects that messages, news and campaigns have on society, who feel comfortable using modern communication technology and who regard the world as their home. The programme trains students to become communication professionals who are culturally sensitive.

- ✓ 4 year programme (240 ECTS)
 - ✓ Exchange semester abroad
 - ✓ Work placement (in the Netherlands or abroad)
 - ✓ Honours talent programme for eligible students
- 🔗 hanze Groningen.eu/ic

Sensor Technology

An Electrical and Electronic Engineering major
Institute of Engineering
Degree awarded: Bachelor of Science

Smart cities, smart mobility, smart phones... sensor technology is everywhere! The Sensor Technology bachelor's programme focuses on the use of existing (smart) sensors and their various applications in domains like healthcare, high-tech systems and energy. You will become a skilled professional with a high amount of technical expertise and a thorough understanding of ICT and Electronics. It's no coincidence, that our innovative programme has been ranked 'Top Rated Programme' in the Netherlands for 7 consecutive years.

- ✓ 4 year programme (240 ECTS)
 - ✓ Direct entry into Smart Systems Engineering master's programme after graduation
 - ✓ Location: 1st and 2nd year in Groningen, successive years mainly in Assen
- 🔗 hanze Groningen.eu/sensortechology

Physiotherapy

School of Health Care Studies

Degree awarded: Bachelor of Science

The Physiotherapy programme teaches students to assess and treat patients with temporary or long-term physical injuries, movement disorders or disabilities. The goal is to achieve the highest possible degree of recovery, activity, participation and quality of life. There are currently more than 200 students from over 30 different countries studying Physiotherapy at Hanze UAS. Graduates may work as an independent physiotherapist or as a member of a health care team.

- ✓ 4 year programme (240 ECTS)
 - ✓ Exchange semester and work placement abroad
 - ✓ Honours talent programme Healthy Ageing for eligible students
 - ✓ Application deadline 15 January
 - ✓ Selection procedure (limited places available for this programme)
- 🔗 hanzegroningen.eu/ip

Sport Studies

School of Sport Studies

Degree awarded: Bachelor of Arts

Are you passionate about sports and do you want to make a change? The inspiration and power of sports gives you great opportunities to make a real difference. This international programme helps you become an innovative sports professional. As a change agent you can make a difference at both individual and community level. The programme is characterised by its professional focus. Each year you will gain real-life work experience. Most modules centre around a practical assignment in a professional organisation. Courses are designed to prepare you for this challenge.

- ✓ 3 year programme (180 ECTS)
 - ✓ Work placement
 - ✓ Exchange semester abroad

Language requirements For information on language requirements, please visit www.hanzegroningen.eu/languagerequirements

6

Media, Art, Design and Technology

Minerva Art Academy

Degree awarded: Master of Arts

Artists doing strange things with technology. This sums up our MADtech programme. To imagine, interpret and change human interaction in a transforming world you will use and artistically explore different technologies. You will do so with a tinker mentality: exploration and experimentation are important aspects of your development and will have special emphasis on the research you do. This mentality, combined with a critical attitude and conceptual skills, will lead to unexpected perspectives, resulting in artistic multimedia work.

- ✓ 2 year programme (120 ECTS)
 - ✓ €2,143 for EU/EEA students; €7,900 for non-EU/EEA students (academic year 2020-2021)
- hanzegroningen.eu/madtech

Painting

Minerva Art Academy

Degree awarded: Master of Arts

You wish to gain more insight into the innovative quality of painting in a rapidly changing world. A painting shows you the imagination of ideas as well as how material is edited and used. Taking a painterly and critical approach means that you create new relationships and associations through the use of materiality. This will enable you to determine the meaning and significance of your work in today's society by combining ideation and materiality, transforming your ideas into unexpected, meaningful and powerful images.

- ✓ 2 year programme (120 ECTS)
 - ✓ Tuition fee: €2,143 for EU/EEA students; €7,900 for non-EU/EEA students (academic year 2020-2021)
- hanzegroningen.eu/mp

Interrelational Artistic Practices - iRAP

Minerva Art Academy

Degree awarded: Master of Arts

The iRap study programme works with interrelational artistic practices or artistic practices in social contexts brought in by students themselves or offered to them. Facing a world that is more and more oriented towards quick results, accountability, protocols and non-human ambitions, the interrelational artist experiences and learns to bring in the human scale, the artistic open attitude, and a general, critical, open ended and comparative way of working. The programme offers the students a context to reflect on the meaning, the values, the methods and potentialities of interrelational artistic practices in non-artistic contexts.

- ✓ 2 year programme (120 ECTS)
 - ✓ Tuition fee: €2,143 for EU/EEA students; €7,900 for non-EU/EEA students (academic year 2020-2021)
- hanzegroningen.eu/irap

Music

Prince Claus Conservatoire

Degree awarded: Master of Music

Developed by a core team of educators and successful professionals, the Master of Music aims to provide socially relevant contributions to the remodelling and development of today's musical world. Opt for one of the following study routes: Classical Music, New York Jazz or New Audiences and Innovative Practice.

- ✓ 2 year programme (120 ECTS)
 - ✓ Tuition fee: €2,143 for EU/EEA students; €7,900 for non-EU/EEA students (academic year 2020-2021)
- hanzegroningen.eu/mastermusic

MSc in Business Studies

(Interdisciplinary Business Professional)

International Business School in close cooperation with 5 other schools in the economic domain Degree awarded: Master of Science

The Master of Science in Business Studies is an intensive, groundbreaking one-year international master's programme in the domain of business studies, designed for ambitious students who are eager to make a difference. You will contribute to solutions and innovations for wicked problems that organisations are facing. These problems are complex interdisciplinary issues that require innovative and diverse answers for organisations that add value to both people and our planet. The four core disciplines of this master's programme are Marketing, Finance, Human Resource Management and Business & IT.

- ✓ 1 year programme (60 ECTS)
 - ✓ Tuition fee: €2,143 for EU/EEA students; €7,900 for non-EU/EEA students (academic year 2020-2021)
- hanzegroningen.eu/mbs

Business Administration (MBA)

(MBA in Purpose Economy)

International Business School

Degree awarded: Master of Business Administration

The Master of Business Administration (MBA) in Purpose Economy is focused on creating value for companies in many more ways than just profit. You learn how to successfully manage a company while operating in a professional and ethical manner and embracing the benefits of intercultural diversity at the same time. The United Nations Sustainable Development Goals take a central place in this. This MBA is targeted at business professionals who want to take their managerial competencies to a higher level and engage with professionals in an international environment. The programme helps professionals to lead with integrity and in compliance with the principles of good corporate governance.

- ✓ 1,5 year (full-time) or 2 year (part-time) programme (90 ECTS); starting in February 2021 and September 2021
 - ✓ Full tuition fee: €20,000 for both EU/EEA and non-EU/EEA students (academic year 2020-2021)
 - ✓ Job-integrated learning and practice-based projects
 - ✓ Minimum of three years of relevant work experience required
- hanzegroningen.eu/mba

International Business and Management

International Business School

Degree awarded: Master of Business Administration

The Master in International Business and Management prepares students to work in a real international context, by gaining intercultural specific competences. In the programme, you learn to solve international business issues from the boardroom perspective of an existing company, with significant practical and professional orientation towards international business. You interact with the world of professional practice through guest lectures by business experts as well as through seminars, real-life consultancy projects and company visits. This programme is designed for students with a wide interest in international business and management, who want to become responsible managers.

- ✓ 1,5 year programme (90 ECTS)
 - ✓ €10,000 for year 1 (semester 1 and 2), €5,000 for semester 3, for both EU/EEA and non-EU/EEA students; Hanze UAS alumni €13,500 (academic year 2020-2021).
 - ✓ Double Degree option at Anglia Ruskin University, Cambridge, United Kingdom (MSc awarded)
- hanzegroningen.eu/mibm

Energy for Society

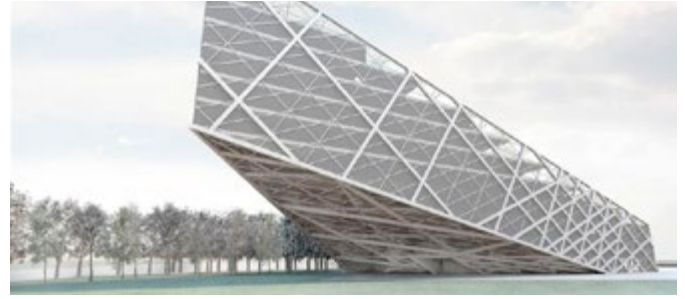

Institute of Engineering

Degree awarded: Master of Science

Climate change is real, energy transition is needed and new professionals are wanted that can help communities to make the transition from fossil fuels to renewables. Will you become the expert that gets people on board to make this transition happen? That is the essence of the master Energy for Society. You will become an energy transition strategist that is able to initiate and support local and regional energy transition projects. Your job opportunities will range from a career with a local profitable organisation to a provincial government agency or a NGO.

- ✓ 1,5 year programme (90 ECTS)
- ✓ Tuition fee: €2,143 for EU/EEA students; €7,900 for non-EU/EEA students (academic year 2020-2021)

🔗 hanzegroningen.eu/e4s

Architecture

Institute of Future Environments

Degree awarded: Master of Science

The Master of Architecture is a challenging programme. It awards you a MSc degree and allows you to become a licensed architect in the Netherlands. The programme focuses purely on design, combining an academic study with work in a professional practice. You will learn how to design through a variety of tasks that are linked to topical and socially relevant spatial issues. The combination of work and study, along with the small-scale nature of the programme, will enable you to accumulate a wealth of knowledge and skills contributing to your personal development.

- ✓ 4 year part-time programme (240 ECTS)
- ✓ Tuition fees: €2,143 EU/EEA students; non-EU/EEA students please check the website (academic year 2020-2021)
- ✓ Graduates have direct access to the Dutch Architects' Register, which means recognition as an architect throughout the EU

🔗 hanzegroningen.eu/masterarchitecture

International Communication

School of Communication, Media & IT

Degree awarded: Master of Arts

Modern economic and social developments such as globalisation, digitalisation and sustainability have their repercussions on the communication branch. The communication profession is more strategic, fast-paced, versatile, more crucial and more international than ever. With the Master International Communication (MIC), we aim to educate a new generation of communication professionals, consultants and change agents, who can act as a key role within international organisations and companies.

- ✓ 1,5 year programme (90 ECTS)
- ✓ €2,143 for EU/EEA students; €7,900 for non-EU/EEA students (academic year 2020-2021)

- ✓ International context
- ✓ Practice-oriented projects in Innovation Lab
- ✓ Master's dissertation: consultancy-based project

🔗 hanzegroningen.eu/mic

Data Science for Life Sciences

Institute of Life Science & Technology

Degree awarded: Master of Science

In the master's programme Data Science for Life Sciences, you will be combining life sciences with data science. You will learn how to use new data processing technologies, write algorithms to recognise sick cells and analyse health-data from smart devices. These skills will help you to contribute to better and more efficient healthcare and aid innovations in the life science industry. In short, you will develop into a data scientist who bridges the gap between domains of life science and technology. This practice-based master's lets you apply your gathered knowledge directly and responds to a growing demand for data scientists. It is also the first master's at a university of applied sciences in this field.

- ✓ 1,5 year programme (90 ECTS)
- ✓ Tuition fee: €2,143 EU/EEA students; non-EU/EEA students check the website (academic year 2020-2021)
- ✓ Practice-based

🔗 hanzegroningen.eu/dsls

European Master in Renewable Energy

Institute of Engineering

Degree awarded: Master of Science,
as well as EUREC certificate

Do you want to make a difference in realising energy transition from a technological perspective? The European Master in Renewable Energy focuses on the technical understanding and implementation of renewable energy techniques. You will gain specific expertise in one of the main renewable energy techniques (such as wind or ocean energy) and their integration into the energy system. The programme has a clear international focus, not only because of the international student mix, but also because you follow the programme at different locations in Europe.

- ✓ 16 month programme (90 ECTS)
 - ✓ 2nd semester abroad
 - ✓ Tuition fees: €2,143 (per year) EU/EEA students; €13,000 (full tuition fee) non-EU/EEA students (academic year 2020-2021)
- hanze Groningen.eu/mre

European Master in Sustainable Energy System Management

Institute of Engineering

Degree awarded: Master of Science

Do you want to make a difference in realising energy transition from a business innovative perspective? The European Master in Sustainable Energy System Management focuses on the business and economic aspects of the energy system. You will learn to analyse, design, and implement business cases and sustainable energy systems with a systemic and interdisciplinary approach, making you a valuable asset to the whole energy industry. The programme has a clear international focus, not only because of the international student mix, but also because you follow the programme at different locations in Europe.

- ✓ 16 month programme (90 ECTS)
 - ✓ 2nd semester abroad
 - ✓ Tuition fee: €2,143 (per year) EU/EEA students; €13,000 (full tuition fee) non-EU/EEA students (academic year 2020-2021)
- hanze Groningen.eu/msesm

Smart Systems Engineering

Institute of Engineering

Degree awarded: Master of Science

Smart systems are increasingly becoming a reality of our everyday life. By 2030, about 500 billion devices are expected to be connected to the Internet. Pinhead sized sensors will be embedded into practically any product on the market. During this programme you will become an architect of intelligent sensor systems, being able to build and develop smart systems that are able to interact with their environment. By discovering new and exciting ways to apply intelligent sensor technology, you are able to help improve the world around us. Upon graduation, you can pursue a career in the fields of health, energy, high-tech systems and materials (HTSM) or become an academic researcher.

- ✓ 1,5 year programme (90 ECTS)
 - ✓ Tuition fee: €2,143 for EU/EEA students; €7,900 for non-EU/EEA students (academic year 2020-2021)
 - ✓ Location: Assen
- hanze Groningen.eu/sse

Welcome to the City of Talent!

Groningen, the Netherlands

The Netherlands - top education destination

The Netherlands are much more than just tulips, cheese, bicycles and wooden shoes. Here's why you should definitely consider the Netherlands as your study destination:

- **English proficiency** The Netherlands are ranked first in the world for speaking English as a second language (EF English Proficiency Index, 2019). Almost everyone you'll meet speaks English, so you won't have trouble communicating with locals.
- **Value for money** Dutch higher education is well-recognised and highly internationalised. More than 2,100 programmes are English-taught, while tuition fees and cost of living are significantly lower than for example in native English-speaking countries.
- **Diverse and inclusive** Annually, more than 75,000 international students from more than 160 countries come to the Netherlands, and this number increases every year. As our country is relatively small, we've always been very much connected to other countries and cultures. The Dutch are known as open-minded and direct, fostering an environment for easy connections and a fruitful exchange of ideas and perspectives.
- **Safe and happy** It could be due to the canals, the abundance of beautiful architecture, or maybe even all those bicycles, but the Netherlands is ranked as one of the safest and happiest countries in the world. We are ranked in the top 15 of the world's safest countries (World's Safest Country index, 2019) and the top 5 of the world's happiest countries (World Happiness Report, 2019).
- **Excellent career opportunities** Some of the world's biggest multinationals, including Philips, Heineken, KLM and Shell, are Dutch. We are a world leader in many areas of expertise, such as sustainability and art & design. The Dutch government is very eager to retain talent – offering international students various opportunities to find a job or start a business in the Netherlands upon graduation.

Groningen – best student city

There's more to the Netherlands beyond Amsterdam. In fact, we dare to argue that you'll come to love the city of Groningen so much, you might never want to leave. There are several reasons why Groningen was voted the Netherlands' best student city (Elsevier) by students. Here's why:

- **Great introduction activities** The KEI-week, organised every year in August, is in fact the biggest introduction week of Europe (NOS, 2018). Next to that, Erasmus Student Network (ESN) Groningen organises an additional intro week especially for international students. Joining these events is a great way to get to know the city and make new friends.
- **World Cycling City** Nowhere in the world is cycling as popular as in Groningen. An astonishing 60% of all traffic movements is done by bicycle. This healthy and environmentally friendly way of transport is embraced by students as well. Groningen has state-of-the-art facilities for cyclists – including safe bike paths and a car-free zone which covers most of the city centre.
- **Youngest city of the Netherlands** Studying in Groningen equals living in the Netherlands' youngest city. A good 25% of Groningen's population consists of students and this enhances an amazing student atmosphere.
- **Compact but complete** Groningen's a city which feels like a town – compact as it is – but is also very complete in terms of facilities, shops and attractions. Everything you need is within reach!
- **Buzzing cultural scene and great sport facilities** With internationally renowned events and festivals such as Eurosonic Noorderslag (January) and Noorderzon (August), Groningen's cultural scene is alive and kicking. There's always something to do around town, whether you're interested in music, theatre, arts, or just love to hit the pubs. Next to that, there are some great sport facilities: as a student you can enjoy all kinds of sports for just €59,95 a year through the ACLO.

10

Groningen: a gateway to Europe

Are you ready to explore all that Europe has to offer? The city of Groningen is a great point of departure to discover the rest of Europe. Major hubs such as London, Paris and Amsterdam, and international airports Amsterdam Schiphol, Eindhoven Airport and Bremen Airport are all within reach. Get ready for take off!

- 🚆 train
- ✈ flight

Hanze University of Applied Sciences

Hanze University of Applied Sciences is the largest and oldest university of applied sciences in the northern Netherlands. With students from 115 nationalities currently enrolled in our study programmes and an abundance of English-taught programmes, we can proudly say that Hanze UAS is a truly international university of applied sciences. We embrace our intercultural Hanze community and would love to welcome you on board. But why would you choose to study at Hanze UAS?

- **Wide range of programmes** Whether you're interested in business, sports, engineering, the arts or something completely different: we've got you covered. We offer international programmes in a lot of domains, enabling you to choose exactly what's to your liking.
- **Learn by doing** From day one, you will get the chance to apply the knowledge gained from your lectures in assignments and projects. You will be learning by doing, and your assignments are always supported by the right amount of theoretical background.
- **Graduate with work experience** Almost all our bachelor's programmes include an internship – offering you the possibility to build your curriculum vitae and make meaningful connections while completing your study programme. This will give you an edge when entering the work force upon graduation.
- **Share your talent** At Hanze UAS, we encourage our students to use their talents to benefit not only themselves, but also the world around them. We aim to give you plenty of opportunities to develop your talent, and to discover talents you never knew you had. We are an **engaged university**. During your studies at Hanze, you can contribute to impactful projects, adding value to the professional field by creating real-world solutions to today's issues. To find out more, visit www.hanzegroningen.eu/engageduniversity.
- **Entrepreneurial attitude** Are you aspiring to be an entrepreneur? Then look no further. With an abundance of facilities in place to help you start your own company, we can help you in case you aspire a future as an entrepreneur.

Cost of living

starting from € 750
a month, depending on
your situation

“Groningen is relatively small, but still feels big enough and very warm. The student scene in Groningen is incredible: there's always an event to attend or a party that's thrown spontaneously”

*Sabrina Stroe, Romania,
bachelor's student in Marketing Management*
